

ETIENNE KAYITARE

Audit, Finance & Accounting Professional – Public Financial Management

Kigali, Rwanda | (+250) 788 916 563 | ekayitare03@gmail.com

PROFESSIONAL SUMMARY

CPA-qualified finance, audit and systems-focused professional with over 10 years of progressive experience in accounting, grant and project financial management, public sector audit and financial reporting, including more than three years at the Office of the Auditor General (OAG) of Rwanda reviewing government financial management systems. Hands-on knowledge of IFMIS gained by auditing the PFM Reform and PFM Reform Basket Fund projects, where I reviewed the implementation of IFMIS technology upgrades and the recurring change requests to existing functionality, and of SDMS through audits of districts that are primary users, covering the accuracy of student data feeding capitation grant and school feeding. Strong skills in business process review, requirements analysis, control and gap analysis, and translating financial and operational needs into clear, testable requirements. Advanced SQL and Excel. MBA in progress (University of Rwanda).

RELEVANCE TO THE ASSIGNMENT

Requirement in the Terms of Reference	Evidence from my background
Recognized accounting qualification (ACCA or CPA)	CPA (KASNEB), completed
Strong accounting and financial background	Accountant, Project Accountant, Senior Financial & Compliance Auditor, Senior Internal Auditor – 2014 to present
Practical experience with IFMIS, ERP, SDMS	Audited IFMIS upgrade and change management under the PFM Reform and PFM Reform Basket Fund projects; audited SDMS data entry and accuracy in districts (capitation grant and school feeding); working user of IFMIS, TeamMate and UMUCYO
PFM, budgeting, financial reporting, expenditure management, internal controls	Public sector audit at OAG; grant and budget monitoring; internal audit and risk management
Business process review, gap analysis, workflow analysis	Process and control reviews of IFMIS change requests and SDMS data flows; risk-based audit programs with documented findings and recommendations
Engaging business and technical teams; facilitation and communication	Presented findings to senior leadership and agreed recommendations with institutional management at OAG; mentored junior auditors
Government systems, public sector reform, financial digitalization (advantage)	PFM reform audits; IFMIS technology upgrade review; IPSAS automation considerations; SDMS audits
Fluency in English or French	English (very good), French (good), Kinyarwanda (fluent)

WORK EXPERIENCE

Senior Internal Auditor

NPD Ltd | July 2025 – March 2026, later transferred to Inyange Industries Ltd | April 2026 – Present

Financial Reporting & Close Processes

- Lead risk-based audit engagements over financial reporting processes, verifying accuracy, completeness and compliance with monthly and annual financial statements.
- Deliver audit reports with variance analysis, identifying discrepancies and recommending corrective controls to strengthen close processes.

Process Review, Compliance & Controls

- Review business processes and internal controls across the group, documenting gaps and recommending practical, system-supported improvements.
- Oversee statutory, regulatory and tax compliance, and assess intercompany transactions and invoicing accuracy across group entities.
- Conduct enterprise risk assessments, guide management in implementing risk management processes, and mentor junior auditors.

Senior Financial & Compliance Auditor

Office of the Auditor General (OAG) – SAI Rwanda | February 2022 – June 2025

IFMIS and PFM Reform Project Audits

- Conducted audits of two projects, the PFM Reform project and the PFM Reform Basket Fund, reviewing the implementation of the upgrade of IFMIS technologies.
- Reviewed the constant change requests raised against existing IFMIS functionalities, assessing how changes were requested, prioritized, implemented and controlled, and their effect on system stability and financial reporting.
- Identified the need for an experienced software architect to support the ongoing development of IFMIS, so that software quality attributes and architectural characteristics (such as maintainability, scalability, reliability, security and auditability) are built in to support the automation of IPSAS.
- Gained detailed understanding of IFMIS modules, user workflows and reporting needs, and of how system design affects internal control and public financial reporting.

SDMS and District Audits

- Audited districts that are among the primary users of SDMS, reviewing the entry of student information and its accuracy through SDMS in the components of capitation grant and school feeding.
- Tested data accuracy and completeness between school-level records and system data, and reported on weaknesses in data entry controls, validation and reconciliation.

Financial Reporting & Donor Grant Oversight

- Audited financial statements and grant-funded project accounts of government institutions and foreign-donor-financed projects, ensuring compliance with donor requirements and public financial management standards.
- Developed and executed audit programs with detailed variance analysis and tracked grant utilization and expenditure against approved budgets.

Compliance, Stakeholder Engagement & Process Improvement

- Evaluated compliance with statutory, VAT and regulatory requirements across public entities, identifying systemic control weaknesses and recommending remediation.
- Presented audit findings to senior leadership and worked with institutional management to implement recommendations and improve risk management and financial governance.
- Ensured full documentation and cross-referencing of work in line with OAG audit standards and international auditing guidelines.

Accountant

Real Covenants Ltd | December 2016 – February 2022

- Managed the monthly financial close cycle and prepared financial and management reports in accordance with accounting standards.
- Performed account reconciliations and maintained the general ledger; produced variance reports and analyses to support management decisions and planning.
- Resolved payment discrepancies and managed accounts receivable to ensure timely cash collection.

Project Accountant

Better Future for Generation | May 2014 – November 2016

- Managed grant and project financial reporting in line with donor budgets, funding agreements and reporting requirements.
- Led budget preparation for project implementation, monitored revenue and expenditure against plans and reported variances to management.
- Reconciled actual project costs to budgets, and managed payroll, accounts payable and financial records.

KEY ACHIEVEMENTS

- Audited the IFMIS technology upgrade and change request process under the PFM Reform and PFM Reform Basket Fund projects, with findings on the architectural quality needed to support IPSAS automation.
- Audited SDMS data accuracy in district-level capitation grant and school feeding, strengthening confidence in student data used for public funding.
- Led financial and compliance audits of multi-million-dollar foreign-donor-funded projects at OAG, ensuring compliance with donor requirements.
- Delivered audit reports on time within OAG quality and timeline standards over a three-year tenure.
- Provided financial oversight of project budgets and grant utilization at Better Future for Generation, with no audit findings on donor compliance.
